All-in data lines surge protector	F CONNECTOR WITH SURGE PROTECTION (ASTRO)	BRITISH SOCKET	TV AERIAL	TELEPHONE, FAX & MODEM CONNECTOR SURGE PROTECTION	BNC CONNECTOR SURGE PROTECTOR	UNIVERSAL SOCKET	DC SURGE PROTECTOR	AC On/Off Switch for Sockets
Connectors: DB-25 Female/ Male Connector	Connectors: Female F-Connector	Rated Current: 13A	Connectors: Female PAL bulkhead	Connector Tel Jack: RJ11-6P2C x 2 (input x 1, output x 1)	To protect CCTV signal	Rated Current: 13A	Operating Voltage: 12 V DC	Operating Voltage: 240Vac
Signal: 5V Data Signal	Signal: LNB Signal	Rated Voltage: 240V AC 50Hz	Impedance: 75ohm	Power Surge Protection: L1-L2, L1-E, L2-E	Signal: Video Composite	Rated Voltage: 110-240V AC 50Hz	To protect CCTV Power Supply	Max. Load: 5A
Insertion loss: <1 dB μ V	Insertion loss: <2 dB at 2GHz		Max. Surge Voltage: 6kV	Max. Clamping Voltage: 200 V DC	Connectors: BNC Female			
			Bandwidth: VHF-UHF	Max. Surge Current: 7,500 A (8/20 μ s)	Insertion loss: <2 dB at 300MHz			
			Insertion Loss: <1dB μ V	Max. Surge Voltage: 6,000V				

MODULINKS[®] SOCKET

Safe | Convenience | Extensible

Modulinks Sockets are the new way to protect your computers, TVs and other electrical / electronic devices. Forget clumsy, old-fashioned surge protectors. Your precious equipment deserve Modulinks Sockets.

Extend your surge protection

- Modulinks Sockets are made for expansion.
- Varies type of Modulink sockets.
- Expand up to 13 Amps load.

Extend your safety

- Easy to setup.
- Keeps and CCTV configuration safe from lighting.

Extend your ease of use

- Easy shuttler lets you use 2-pin plugs as easily as 3-pin plugs.
- Save on messy adaptors.

Extend your money & space

- Buy only what you need.
- Save money and space

Extend your confidence

- Lifetime Repair - risk-free guarantee.

Extend your peace of mind

- Connected equipment warranty protects your devices up to RM20,000

Instructions

- Total coverage of connected equipment must not exceed 13A.
- LED on first Modulinks Socket lights up when all Modulinks Sockets are properly connected.
- For safety, if the last Modulinks Socket is not connected, all Modulinks Sockets will not energise.
- Do not use Modulinks Sockets near hot, wet or oily locations.
- Do not plug extension cords into Modulinks Sockets.
- Unplug product from power outlet when not in use.

Cautions

- Modulinks Sockets are for indoor use only.
- Do not place cable through doorways or at locations that might damage cable insulation.
- Do not install product during a lightning storm.
- In case of any emergency, immediately unplug product from power outlet.
- Do not use product for other than its intended purposes.
- Warranty does not cover damage due to breakage, voltage overload or other forms of misuse.
